ABOUT ME

As a technophile, I'm enthusiastic about expanding my skills and learning new technologies and exploring cloud-native architectures and optimizing resource utilization is what drives my passion for this field. In terms of my goals, my immediate aim is to secure a position in a reputable company that values creativity and innovation. However, I firmly believe that continuous learning empowers to solve real-world challenges effectively.

EXPERIENCE

Technical Core-committee I
Student chapter (UPES-CSI) | Oct 2022 - June 2023

Got a chance to engage in knowledge-sharing initiatives, such as writing technical blog posts, creating tutorials, or delivering presentations to enhance the technical understanding of the members.

Social Work Intern
Anukulan NGO | June 2022 - July 2022

It was a great opportunity to give back to society through this NGO. NGOs deal with real-world problems, my experience at Anukulan NGO might expose to issues like education, healthcare, poverty, gender equality, environmental conservation etc.

CERTIFICATIONS

In online courses:

- tcs-iON Young Professional
- SQL and Relational Database
